#### DESCRIPTION

**Camden Door Control** offers an industry-leading range of packages designed specifically for the control of automatic doors in restroom applications. These kits feature a number of innovative and exclusive products that are not available elsewhere, including the CM-AF500 single gang annunciator (providing 'OCCUPIED WHEN LIT' white-out signage, not visible when unit is not lit) CX-33 advanced logic relay (providing exclusive operation modes for restroom control) and Aura™ illuminated push plate switches (that combine 'OCCUPIED WHEN LIT' annunciation and door activation in one product). Camden also offers barrier free restroom control utilizing touchless switches.

#### APPLICATION

Camden Door Controls CX-WC Series barrier free restroom control systems provide a complete equipment package for compliance with building code requirements. They are designed for universal restrooms with one or two doors. The kit include a relay controller, 'PUSH TO LOCK' and 'PUSH TO OPEN' activation switches, and the option for audible and visual 'OCCUPIED' annunciation. Additional components to make a complete system, including additional 'PUSH TO OPEN' push plate switches and electric strike, are offered separately.
